Progressive Mango Growers Meet

A one-day programme on “Progressive Mango Growers Meet” was jointly organized by Syngenta India Ltd. and ICAR-CISH RRS, Malda on February 12, 2019. Presence of more than 100 farmers made the event successful. Initially programme was inaugurated with lightening of the lamp by Dr. P.K. Chakraborty (ADG Plant Protection), Dr. S. Rajan (Director, ICAR-CISH, Lucknow) and Dr. V.K. Singh. Other dignitaries were Dr. Dharendra Nath Dalai, Dr. Dipak Nayak, Dr. Ashok Yadav, Dr. Ashish Seth, Sri Satish Kumar Singh, Mr. Sanat Mandal, Mr. Manojit Ghosh, and Mr. Sandeep Saha. Dr. S. Rajan, Dr. P.K. Chakraborty and Dr. Dipak Nayak enriched farmers knowledge by giving them possible solutions of their problems i.e. low mango price, improper handling, intercropping, fertilizers and micronutrient application, spray of insecticides and pesticides and how to improve the market channel by increasing their market intelligence.

Agri-Clinic and Agri-Business Centre

Institute started Agri-Clinic and Agri-Business Centre to facilitate agriculture students with the intention to

train them about the basic concept of Agri-Business management from January 8 to March 6, 2019. The qualified trained agricultural professionals would be eligible to set up Agri-ventures that can deliver value-added extension advisory services to farmers. These professionals will be eligible for startup loans from nationalized banks and subsidy from National Bank for Agriculture and Rural Development (NABARD).

Residential training programme on “Agri entrepreneurship”, Agri-Clinics and Agri-Business Centres scheme”

Agri-business Incubation Centre

ICAR-CISH, Lucknow started ABI centre to provide the necessary support for validation and upscaling of technologies to encourage their reach to the user as an attractive business proposition. It facilitates the innovator and researchers to transform their ideas into commercial venture. The centre will focus on incubation and business development programme, including entrepreneurship, skill development, start-ups and grassroot innovators activities.
